

# Elavtoit

[www.elavtoit.com](http://www.elavtoit.com)

This site offers opportunities to form friendly and balanced direct relations between the farmer and consumers. Now, you can deliver goods home while preserving its genuine and fresh value. The consumer needs to be sure, that the food he is eating is fulfilling and always available. The farmer needs to be sure, that his product gets to the market and to consumers on time and reaches to the people who need it. Both, the consumer as well as the farmer want the market price to be fair. This is direct communication without a middleman.

Opportunities:

1. You can check out the location of the farmer on Google MAPS.
2. Find products location on the map. Sellers are shown on the map.
3. Farmer's current inventory is all to see.
4. If you didn't find the product what you are looking for, then it is possible to enter your purchase request.
5. Search opportunities on Google MAP by route and radius.
6. Satellite image and map viewing options.
7. There are three study references for using the site.
8. Annual fee 100 kroons, first three months for free.
