

A passion for crafting extraordinary experiences

Step into the world of Due Volte, where the art of event-making transcends borders, creating unforgettable moments woven together by the magic of good food, Italian hospitality, and the charm of carefully selected locations in Estonia and Italy.

Good things come from good cooperation. The Due Volte team collaborates closely to ensure that every detail aligns with the customer's unique preferences. Savour the magic as their skilful hands elevate your gatherings beyond the ordinary, turning dreams into realities. This elegant and meticulous, yet carefree attitude lies at the core of the Due Volte visual identity. Skilful and delicate hands that represent creating and doing became the most distinctive part of the logo as well as inspiration for illustrations, sun-kissed and fresh as the Mediterranean breeze.

The most important thing is not to be right, but to understand how to make it right. Rhombus (or a diamond) is used in the branding as an accent element. All sides of a rhombus are equal, which carries forth the idea of listening to each other and doing things together to achieve the best possible outcome. Crafting moments that resonate through the senses and linger in the heart for you to enjoy once, feel twice.
